## TOOTH JEWELLERY

### Q What is Tooth Jewellery?

**A** Tooth Jewellery is the latest fashion craze to hit the UK. Tooth jewellery classic designs are an elegant compliment to standard jewellery. When placed on the tooth, the jewellery creates a distinctive expression of one's individuality.

There are 2 main types of tooth jewellery available: -

- **Twinkles:** - This is a collection of 24-carat gold and white gold jewellery. The jewellery is available in over 50 different designs with some including diamonds, sapphires and rubies.
- **Dental Gems:** - Are a range of glass crystals are available in nine different colours – diamond, rainbow, ruby, sapphire, emerald, emerald green, aquamarine, pink, sapphire light.

**Q Is The Jewellery For Males Or Females?**

**A** Both – there are many different designs which appeal to everyone. Children under the age of 16 should have parental consent.

**Q How Do You Apply them?**

**A** The dentist will use a dental adhesive to apply the Jewellery to your tooth.

**Q Does The Application Procedure Hurt?**

**A** NO! – The procedure is similar to placing an orthodontic bracket on a tooth. There is no drilling involved and the procedure is completely painless.

**Q How Long Does The Application Procedure Take?**

**A** The fitting procedure should take no more than 10 to 15 minutes.

**Q How Long Will The Jewellery Stay On My Tooth?**

**A** The tooth Jewellery can last on your tooth indefinitely or for as long as you want it.

**Q Will The Tooth Jewellery Harm My Tooth?**

**A** When properly placed by a dentist, the tooth Jewellery will not damage or harm your tooth in any way. Tooth jewellery should only be applied to natural teeth.

**Q How Do I Remove The Tooth Jewellery When I No Longer Want it?**

**A** If you would like to remove your tooth jewellery, it can be taken off by a dentist at any time.

**Q How Much Does It Cost?**

**A** Prices vary from design to design, ask your dentist for more information.
